MEMORANDUM FOR: Project Director of Administration

SUBJECT : Project Policy on Medical Services for Contractor
Personnel

25X1A5a1

1. Attachment 1 is an inquiry from [REDACTED] concerning Project policy in regard to supplying medical services to contractor personnel while overseas.

25X1A5a1

2. As attachment 1 indicates, Section 12 of the [REDACTED] Agreement of Employment does not indicate that the [REDACTED] employees have been promised full and complete medical coverage while overseas at no cost to the employees. However, Section 12 of the Lockheed Agreement of Employment indicates that the Lockheed employees under their contract may expect medical and hospital care at Company or Government expense. 25X1A5a1

3. On my recent visit with the [REDACTED] people on the West Coast it was brought to my attention that Hycon contractor people for this Project were being offered membership in a group plan, but these employees had raised the question as to whether it would be an unnecessary expenditure on their part to join such a plan in view of the fact they believed themselves fully covered for these medical services by their contract.

4. It would be appreciated if a policy decision on this matter were made so that [REDACTED] could correctly advise their people.
